

4550 Final Study Guide

What the test covers:

The material from test 1 and test 2.

That is, HW 1 – HW 6.

Step 1:

Redo test 1 and test 2.

Practice the computations and proofs on these two tests.

Step 2:

Do problems that are similar to the ones on test 1 and test 2.

For example, for Test 2 problem 4 you could do HW 6 - #3 and HW 6 - #4.

Step 3:

Do problems / proofs in any areas that you need to work on more.
