INDUSTRIAL MANAGEMENT

GRADUATE PROGRAM

At Cal State LA, College of Engineering, Computer Science, & Technology (ECST) we prepare students with backgrounds in engineering, business, manufacturing or related industries to gain management skills that help them in areas involving planning, problem solving, and decision-making. Students are able to tailor their program to fit their specific needs.

ABOUT ECST

Cal State LA is recognized as an affordable, quality education designed to fit the needs of working professionals. College of ECST is recipient of the Bronze-level Recognition for the ASEE Diversity Recognition Program.
