

Prospective Instructional Technologists...

Are you interested in becoming

- a coordinator of educational technology at your school or at the district level
- an educational media developer
- a website creator
- a technology teacher in your classroom

Are you thinking of working in a corporation or business as

- a website designer
- instructional designer
- technology trainer

Join the Instructional Technology Program in the Charter College of Education at **Cal State LA**. We offer two **MA Degree in Education** options in **Educational Technology & Leadership** and **New Media Design and Production**; two graduate certificates in **Online Teaching and Learning** and **Computer Applications in the Schools**; and a supplementary authorization in **Computer Applications in the Schools** to add to a single or multiple subject credential.

Here's a great opportunity for you! You can enter this field with a degree in any content area (e.g., Communications, Arts, Engineering, Education, ULRN, etc.) Pick **one** of the meetings below!
