

Dear Friends and Colleagues,

As a part of the Campus as a Living Lab Initiative at Cal State LA, we have built a learning community of Environmental Educators from K-12, higher education, non-profit organizations and governmental organizations in Los Angeles.

We invite everyone to a one day symposium at CSULA to participate in a networking and sharing symposium event on campus. The symposium will be a poster presentation of your work (related to environment, energy and sustainability) in the community, your ideas in process, research or anything that you would like to share with the learning community, whether it is in higher education, K-12, non-profit or with government. Even if you do not have any poster to present, please sign up to attend the symposium and be a part of the networking community.

The symposium will be held on May 2nd 2015. In order to participate in this symposium please click the link and complete the registration form:  
<http://www.eelearningcommunity.org/reunion-2015>

Please note that once you are accepted (as a presenter or as an attendee), the symposium participation fee is complimentary for the all the participants. You are also welcome to have a group poster presentation.

If you have any questions please feel free to contact us.
